Notice of Intention to Become a Sole Trader.

IN THE MATTER OF THE APPLICATION of Valeria Powell to become a sole trader.

NOTICE is hereby given that I, Valeria Powell, wife of S. W. Powell, a resident of the town of Bodie, County of Mono, State of California, being desirous of availing myself of the provisions of Title XII, Part III, of the Code of Civil Procedure, intend to make application to the Superior Court of the County of Mono, State of California, at the April Term, A. D. 1880, of said Court, to be held at the Court-room of said Court, in the town of Bridgeport, in said county, on Monday, the 19th day of April, 1880, at the opening of the Court on that day, or on such other day to which the hearing may be postponed by the Court, for a judgment and order of said Superior Court, authorizing me to carry on and transact business in my own name and on my own account as sole trader. The nature of the business I propose to carry on and conduct is that of buying and selling.

A Modernized Fable.

"A cat, my dear children, fell in love with a handsome young man, an' intreated the gods to change her into the form uv woman, that she might make what society nowadays calls a 'mash.' The gods, at a special meeting uv the board, Jupiter in the chair, granted her request and transformed her into a counter-hopperess in a millinery store. It wuz enough. The young man saw the beautiful damsel, flirted with her, an' it wuz not many days until she gobbled him up for keeps. The happy couple lived together quite happily until one evenin', together in their room, a mouse chanced to run over the floor. The fair young bride who had not forgotten her old habits uv life, immediately darted after it an' give it a lively whirl aroun' the room. The mouse escaped by the skin uv its teeth, an' while the husband wuz marvellin, at the courage uv a womau that led her to tackle a livin' breathin' mouse, his better half uttered a sorrowful, disappointed sort uv a 'meow!' an' jumped out of the winder. Here she waltzed up an' down on the back fence, curved her spine, and catter-wauled outrageous. Because her husband did not respond to her lovin' call an' jine her in a moonlight promenade on the pickets, she sued for a divorce, allegin' incompatibility uv temperament, failure to provide, extreme cruelty an' intemperance. A decree was granted her with $10,000 alimony. Matrimony, my dear children, is a risky business."

Another piece, weighing 92¼ pounds, of the big meteor of May 10th, 1879, has been found in Emmet county, Iowa. This piece fell in a slough which at the time was full of water, but is now dried up. It was found about three miles northwest of the 170-pound piece, and about four miles northwest of the main body, which weighed 347 pounds.

The Sedalia (Mo.) Democrat reports that a party of gentlemen have discovered a mound near Knob Noster, that State, which contains the skeletons of pigmies, with skull no larger than a man's fist, and the jaws provided with full sets of teeth, showing them to be the remains of grown persons.

John P. Smith was sent to the Indiana State Prison for whipping his wife, who at once set about getting him pardoned. While making a long journey afoot, in cold weather, to get signatures to the petition, her baby froze to death in her arms.

A Milwaukee mother sent her boy to school in girls' clothes, to shame him from playing truant. If that boy doesn't grow up to become a pirate, it will be because the life of a Leadville highwaymsn offers more inducements to his soaring ambition.

According to Chinese notions of rank, masters must not occupy sleeping rooms below their servants. Consequently the families of the Chinese Professor in Cambridge, Mass., sleep in the attic, and the servants down stairs.

WOMAN'S WORK.

To wash and bake, to mend and make,
The weary steps of toil to take;
To cook and scour, to dust and sweep,
And all the house in order keep,
To rise at morn and o'er and o'er
Do duties done the day before,
And often to herself to say,
The old, old lines in weary way,
"From dawn of day, till setting sun,
Woman's work is never done."

To watch and pray, to gladly take
Love's crosses for love's crowning sake;
To love and grieve, to smile and weep,
Her deepest thought in silence keep,
To teach and lead, to hope and trust—
Have trust betrayed—as woman must,
To gently chide, to cheer and bless,
To bear with patient tenderness
Her burdens all; nor shrink away,
But bravely look ahead and say,
"From dawn of life to setting sun,
Woman's work is never done."

Chinese Proverbs.

Confucius said: To dwell with a good man is like entering a house wherein are the fragrant "fan" flowers. after awhile you may not seem to smell the fragrance, because you yourself have changed—(your whole person has become impregnated with the fragrance.)

To dwell with a bad man is like entering a market of abalones (a large shell-fish) after awhile you do not notice the stench, because you yourself have changed—(your garments are saturated with it.)

The vessel in which cinnabar is stored will have the carnation color; the vessel which contains black varnish will become black.

Therefore, all ye gentlemen! take great care with whom ye associate.

Association with good men is like the fragrance of the lan-wai flower. Let one man cultivate it, and all people will enjoy its fragrance.

Association with bad men is like carrying a child to the top of a wall; if the man misses his step, both will meet with disaster.

In the family sayings of Confucius it is said: To dwell with a good man is like walking in a gentle mist: although your garments do not become suddenly wet, yet are they all the time imbibing the moisture.

Among mankind we use riches to try friendship—(real friendship is tested by wealth and poverty.) Fire is used for trying gold. With water we take a stick to sound it as to deepness or shallowness.

The Reason Why.

Can any one tell why, when Eve was manufactured from Adam's ribs, a hired girl wasn't made at the same time to wait on her? Because Adam never came whining to Eve with ragged stockings to be darned, a collar string to be sewed on or glove to be mended "right away, quick now!" Because he never read the newspaper until the sun goes down behind the palm trees, and then stretching himself, yawned out, "Ain't supper ready, my dear?" Not he. He made the fire, and hung over the teakettle himself we'll venture, and pulled the radishes, peeled the bananas and did everything else that he'd ought to. He milked the cow, fed the chickens, and looked after the pigs himself. He never brought home half a dozen friends to dinner, when Eve hadn't any fresh promegranates, and the mango season was over. He never stopped out until 11 o'clock to a "ward meeting," hurrahing for an out-and-out candidate, and then scolded because poor dear Eve was sitting up and crying inside the gates. He never played billiards or drove fast horses, or choked Eve with cigar smoke. He never loafed around corner groceries, while solitary Eve was rocking little Cain's cradle at home. In short, he didn't think she was specially created for the purpose of waiting on him, and wasn't under the impression that it disgraced a man to lighten his wife's cares a little.

An Italian, who had endured much prosecution with a calm, unruffled temper, was asked how he attained such a mastery over himself. "By making a right use of my eyes," said he. "I first look up to heaven as the place whither I am going to live forever. I next look down upon the earth, and consider how small a space of it will soon be all I can occupy or want. I then look around me and think how many are far more wretched than I am."

The history of the introduction of the potato into France affords a strong illustration of the influence of authority. For more than two centuries the use of this invaluable article of food was vehemently opposed. At last, Louis XV, wore a bunch of its blossoms in the midst of his courtiers, and the consumption of the root became universal in France.

The ruin of most men dates from some vacant hour. Occupation is the armor of the soul. There is satirical poem in which the devil is represented as fishing for men, and fitting his bait to the taste and business of his prey; but the idler, he said, gave him no trouble, as he bit the naked hook.

At a recent fashionable wedding in New York, the groom, after the ceremony, lifted the bride's veil and presented her to the clergyman to kiss.

SUPERIOR JUDGE.

Speculation is rife throughout the town as to whom the Governor will appoint to fill the office of additional Judge for this county. A number of attorneys, whose names have been mentioned in connection with the office, including Frank V. Drake and T. A. Stephens, are ineligible for the reason that they have not resided in the State for a length of time sufficient to qualify them for the office. We do not subscribe to the doctrine that "to the victors belong the spoils, but we believe that the Governor will be able to appoint to this important office a person in whom will be united the qualifications requisite to discharge the duties of Superior Judge with honesty and ability, together with the national political connections embodied in the platform upon which Governor Perkins was elected. Taking this view of the matter, the Governor has the choice of George C. Gorham, Jr., a young man of good legal ability and a stalwart Republican—one whose friends of both political parties would be pleased to see elevated to the Bench. But, should the Governor ignore politics, we as Republicans, prefer Thomas P. Ryan for Superior Judge. Mr. Ryan is a Democrat—an honest one—such as political opponents admire and respect. His record is extensive and faultless. As a member of the California Legislature, District Attorney of San Francisco and Attorney for the Harbor Commissioners, his record stands pre-eminent and is a monument of political rectitude. And none know this better than his intimate and personal friend Governor Perkins.

VALE KEARNEY

The people, not only of San Francisco, but the whole coast, are to be congratulated on the result of the recent election. It is to be hoped that Kearneyism in its present disastrous overthrow has met a Waterloo defeat, from which there is no recovery. The minds of the citizens, and the business industries of that city have been so disturbed by incendiary harangues and threats of riot and bloodshed, that the news of the late splendid victory, in the interest of peace and order, is received on all sides with hand shakings and thanksgivings. The peaceful solution of the difficulties by which she was surrounded and the rescue of San Francisco from the sea of trouble in which she has been so long tossed, furnishes a splendid example of the efficiency of the ballot as applied to the administration of Republican government. The bloodless battle fought and won through its instrumentality supplies the most indubitable proof of the capacity of the people to perpetuate to all future time a government of the people, by the people and for the people through its means. A strong business boom for San Francisco is now confidently predicted everywhere—a prediction which we not only hope, but expect to see fully verified in the near future. A consumation devoutly to be wished.

It is said that at a recent meeting of the Republican County Central Committee in Humboldt county, Nevada, the Treasurer turned over to his successor some seventy-five dollars, which had remained in his hands since the last election, two years ago. This is unprecedented in this State, and is said to be the only instance on record where the Treasurer of a Central Committee turned money over to his successor.

WILL NOT SHOW UP.—Parties who have recently returned from Columbus District do not think much of the mining outlook in that direction. Although ore is still coming out of two or three of the leading mines it is thought not much is left, as visitors are not allowed to go down into the lower levels.

It is reported that the famous Idaho mine of Grass Valley, has been sold to a company of New York bankers. The price is said to be $650,000.

Senate.

SACRAMENTO, April 3—Yonng's substitute relative to drainage, which recently passed in the Assembly, was read for the first time, and referred to the Committee on Irrigation and Drainage, after an extended debate.

The vote to refer the debris bill, with Youngs's substitute, to the Committee on Irrigation is generally interpreted as a movement favorable to the measure. It does not take $4,500,000 by taxation, but it takes swamp lands of that value. About $800,009 is the amount of revenue to be raised annually under the bill.

Assembly

SACRAMENTO, April 3.—The Committee on State Hospitals reported favorably on the Concurrent Resolution No 25, which requires the State Board of Health to consider the advisability of establishing a State Hospital for consumptives, and the same was adopted.

The Senate Normal School bill came up as the order of the day, whereupon Mr. Brown, of Sonora, offered a substitute, and moved its adoption. A long discussion took place, interior members generally favoring the substitute, because it gave the extreme northern and southern part of the State Normal schools. The roll was formally called on the substitute, and it was rejected. Ayes 31, noes 40. Mr. Green offered an amendment to appropriate $50,000 for building of the Normal school at Los Angeles. During the discussion Mr. Mulholland took the floor, and while debating the bill which gave to the other parts of the State a Normal school, charged that certain members had voted for the debris bill in consideration of getting votes for the San Jose school bill.

Tyler interrupting—"I rise to a point of order. The gentleman is casting reflections on members here, and I ask that he give us the names of those who made such bargains."

Mulholland, turning to Tyler—"Haven's you done so yourself?"

Tyler with a perfect yell asked that these words be taken down.

The Speaker—"Times up."

Cries of "time, time;" during which Mulholland took his seat.

Braunhart—I move that Mr. Mulholland be allowed to proceed.

The Speaker—His time is up, come to order.

Tyler—Mr. Speaker, the question has been asked on this floor if I have made a bargain of that kind; a question of that kind could have come only from the purient imagination of a man who was willing to do such a thing himself. If any man on this floor will come to my face and say that I did such a thing I will give him $1000. He could not say it without telling a lie, and he would not lie to my face. If the gentlemen knows that such a thing has occurred, and will tell me who made the bargain, I will vote to expel him.

May—Does the gentleman not know of any "You tickle me and I'll tickle you" going on? [Laughter]

Tyler—I do not look upon a question of this kind as a jest. I say a man who would come to me or any other member, and say, "If you will support my bill I will support yours," deserves to be kicked off this floor, and deserves the execration of every honest man, and I will vote to expel him.

Adams—The gentleman had better begin by kicking himself off the floor, and then the rest of the members. [Laughter.]

Braunhart—I move the apology of the gentleman from Alameda (Tyler) be accepted. [Laughter.]

Here the Speaker rapped the actors in this exciting scene to order, and a recess intervened.

The Governor has approved Assembly bill No. 95, An Act to legalize and validate the assessment and assessment roll of county and State taxes for the fiscal year commencing in March, 1879.

TRUCKEE, April 2.—A furious storm has been raging on the Sierra since 4 o'clock this morning. Snow plows are running constantly between Truckee and the summit, and from the summit to Emigrant Gap. At Miller's mill, four miles west of Truckee, it is almost as high as the top snow plows. The snow plow train which has just arrived from the summit came near sticking at one place on account of the heavy snow drifts. All the trains are running regularly, but if the storm lasts until night it will require superhuman efforts to keep the road from being blockaded. Beyond the summit 2,000 feet of snow shed were crushed during the last severe storm, and this portion of the track lies exposed to the elements. Should a wreck occur a hundred men are held in readiness at this point to be sent forthwith and clear away the wreck. A snow plow train has just arrived from the east, plowing very heavy all the way from Bronco. There is more snow on the mountains than at any previous time during the winter. Every train requires two to three engines. The telegraph wires are badly demolished, and only three out of the nine wires are now in working condition.

Murder.

WALLA WALLA, April 2.—A fearful murder is just reported from Big Lake county. A small woman with dark hair and eyes was found dead with her clothing completely stripped off and her ankles tied with a rope. The body was dragged up the canyon several hundred yards. Under the circumstances the deed bears a striking resemblance to a murder recently perpetrated in this vicinity. The officers have a good clue.

Indian Shot.

WALLA WALLA, April 2.—An Indian of the Umatilla Agency, under arrest for horse stealing, was shot dead while trying to escape from an Indian, who had him in charge.

SHERIFF'S SALE.

SIXTEENTH DISTRICT COURT. NO.— Order of Sale and Decree of Foreclosure. J. H. PAGE, Plaintiff vs. A. P. DUERR, Defendant.

Under and by virtue of an order of sale and decree of foreclosure issued out of the District Court of the Sixteenth Judicial District of the State of California, in and for the County of Mono, on the 8th day of January A. D. 1880, in the above entitled action wherein J. H. Page, the above named Plaintiff obtained a judgment and decree against A. P. Duerr, Defendant, on the 8th day of January A. D. 1880, which said decree was on the 8th day of January, A. D. 1880, recorded in Book A of said Court, at page 346 I am commanded to sell:

All that certain lot, piece or parcel of land situated in the County of Mono, State of California, and bounded and described as follows, to wit: All the right, title and interest of the within named defendant of, in and to the following described property, viz: A certain lot on the westerly side of Bodie Avenue, in the town of Bodie, Mono county, California, being fifty feet front on said Bodie avenue and running back westerly at right angles with said Bodie avenue, one hundred (100) feet, and adjoining on the north by a lot owned by James Welch and on the south by a lot owned by J. Glenn and opposite a lot owned by James McVarish, the same having thereon a frame house, twelve by sixteen feet.

Public notice is hereby given that on the TWENTY-SIXTH DAY OF APRIL A. THE CHRONICLE.

BODIE, APRIL 5, 1880.

The CHRONICLE Office is on the second floor of "Goodson's Building," east side of Main street, between Standard Avenue and Green street.

JOB PRINTING.—Job printing of the finest description will be furnished at this office at Sacramento prices.

LOCAL INTELLIGENCE.

FREE ADVERTISING.— Since we commenced the publication of a daily our cotemporaries have daily noticed us in various ways—good, bad and indifferent. As it is free advertising, and we are charitably disposed, and knowing that our friends are in needy circumstances, we, in good faith, suggest that they make a fair charge, and we will assume the amount and pay it to their numerous creditors, embracing merchants, hotel and restaurant keepers. Their creditors will be glad to exchange from a below par to as good as wheat debtor.

TOWN-SITE SURVEY.—Some two week since United States Deputy Surveyor L. A. Scowden set signal flags, for his convenience preparatory to commencing the survey of the town-site of Bodie. As soon as the snow will permit, the work will commence All property owners will not only advance their own interests but, also, facilitate the work, if they will hand a description of their lots to Mr. Scowden.

BELLIGERENT.—About 7 o'clock last evening a set-to occurred between an Indian and a Chinaman, arising from the Indians snowballing the latter, who showed fight. The Indian tried to cut off his opponent's cue, but the police interfered before the "rape of the lock" was accomplished. It was an amusing affair, and was witnessed by an immense crowd.

THE WEATHER.—Yesterday was warm and pleasant and the snow felt the effect of the sun in a manner gratifying to our citizens. We doubt if there was ever a greater disgust among all classes that we should have been afflicted with another snow storm. Three and a half months of continuous sleighing was more than a surfeit.

HOW IT LOOKS.—It looks to an outsider as though our cotemporaries have no thoughts except for the CHRONICLE. Not a day passes but they mention us. We can assure them, that we care not to mention their names in our columns: they do not worry us, but we do them, else they would leave us alone.

SHEEP.—A large band of sheep arrived here last week from San Bernardino county. They were shipped by cars from Santa Anna to Reno, and then driven to our city by Mr. Cutting, who supplies our markets with mutton. By this it will be seen how far we have to go for our mutton.

FINE CONFECTIONARY.—Mrs. Swan has opened a confectionary store in Abbot's building, on Mill street, between Standard Avenue and Mill street. She intends to keep a fresh supply at all times at reasonable prices.

ROBERT EMMET.—On Wednesday evening next the Amateurs of Bodie, will give an entertainment, "Robert Emmet' at Miners' Union Hall. We commend them to the public, and trust they will have a full house. Tickets one dollar.

NO ARREST.—Everything is quiet in police circles. About 3 o'clock yesterday morning three shots were fired back of Central Hotel, but the officers failed to find the party.

JUST RECEIVED.—Choice, Creamy, Butter, in Rolls, from one of the best California Dairies at Point Reyes. For sale by, Page, Wheaton & Co., Dealers in Choice Family Groceries.

DEPUTY.—William E. Reading, of Bodie, has been appointed Deputy County Assessor, and has entered upon his duties. A good appointment.

ORATOR.—Frank V. Drake, of this city, is to deliver the oration, at the celebration of the Odd Fellows' Anniversary, at Aurora on the 26th inst.

UPSET.—Yesterday afternoon, on Upper Main Street the Pioneer Brewery sleigh upset, and a spigot flying out there was a general "squirt" of lager.

NEW COURT HOUSE.—In anticipation of another Superior Judge and a consequent holding of Court in Bodie, considerable speculation is rife as to where court will be held.

LYING CLUB.—Judging from what the printers say about the workings of this office, the Typographical Union must have changed itself into a Lying Club.

SLIM ATTENDANCE.—On account of the inclemency of the weather the attendance at the Sunday School, yesterday, was not as large as usual.

REFITTED.—L. Hollander has refitted his store and laid in a fine stock of new jewelry, watches, etc.

GRAND CONCERT.—The scholars of the Sabbath School are preparing to give a grand concert on Sunday, the 25th inst.

Several sales of mining property in Tuscarora District were made at fair prices last week.

There is no fish in the world that will increase in weight like a trout, after it has been pulled from the water.

OUR MINES.

BELVIDERE

C. VAN DYKE HUBBARD, Secretary Belvidere Mining Company.—DEAR SIR: Our main shaft is to-day 50 feet below 400 station, still carrying the ledge about five feet wide, now pitching to the east. The ledge continues somewhat broken, but the quartz on the east wall is showing considerable improvement; assay of average sample today gives: Gold $20 09; silver $4 71; total, $24 80. On 400-foot level main west crosscut is in 126 feet, without any important change to note. We propose to continue this crosscut to our west boundary line, where the Con. Pacific will connect us from their 400-foot level. On the 350-foot level the south drift is in 179 feet; the ledge is showing considerable improvement, but is still low grade. North drift is in 60 feet; the ledge is becoming somewhat broken, but is still carrying seams of good ore. On the 300-foot level the north drift is in 64 feet; ledge strong and well defined, carrying two feet of fair milling ore. The south drift on this level since last report is in 15 feet and is to-day showing improvement. Owing to late storm we have been unable to do little or nothing toward the erection of hoisting works and machinery. The saw mills in the vicinity are not yet running and but little lumber of any kind is procurable.

W. P. HOLMES,
Superintendent.

DUDLEY.

E. C. MASTEN, ESQ., Secretary—DEAR SIR: Owing to some necessary repairs on our boilers which supply the steam pumps we have, during the past week, been compelled to suspend operations on the 500-foot level. We were able by constant bailing to hold the water at about two feet deep on the station floor, so that no damage was done to the crosscut. All repairs are now completed and work again resumed in the crosscut, working around caved ground referred to in last report.

W. P. HOLMES,
Superintendent.

GOODSHAW.
Thomas Buckley, Sup't.

The east crosscut 600 level is in 20 feet. The west crosscut, same level, is in 5 feet. Formation in the face of both crosscuts of the most favorable character. Have struck a strong flow of water in the east crosscut that retards progress to some extent. The pumps are working well and handle the water easily. The machinery on the surface is all in good order and working well.

BLACKHAWK.
S. B. Ferguson, Sup't.

The east drift, on the 700 foot level, is in 44 feet in good working ground and the indications are favorable for soon cutting the ledge. The west drift just started, in 7 feet. The rock is hard and progress slow. On the surface the machinery is in good order and working well.

SOUTH BULWER.
J. C. Turner, Supt.

The east crosscut, on 550 foot level, has been advanced 10 feet, making a total length of 31 feet. A few days ago a small ledge was cut in this crosscut; it is about 9 inches wide of a very good quality of ore. A large flow of water is still coming in from the face, and the ground coming in is much better working. The west crosscut, 500 foot level, has been advanced 8 feet, making a total length of 37 feet. The ground in the face is looking favorable and works very well.

UNIVERSITY.
David Moore, Supt.

The shaft is down 465 feet, the formation continuing the same as at last report—of the most favorable character of vein porphyry, carrying small veins of rich ore. At the 500 level a station will be cut and crosscut run for the ore bodies opened up on the old workings of the mine.

BOSTON CON.
Martin Jones, Supt.

During the past week 14 feet have been added to the depth of the shaft, which makes it 92 feet below the 200 level. During the coming week a station will be cut at the 300 level, where a crosscut will be started for the vein. The north drift, 200 level, is in 111 feet; progress for the past week, 10 feet. The face of this drift is in good-looking vein matter, 4 feet in thickness; there are also 18 inches of fair milling ore on the east side. Indications show themselves that at a greater depth an ore body of great size and richness will be found. The bottom of the north drift, 200 level, for the last 40 feet, has shown a more regular and concentrated body of ore than the roof does, and, taken in connection with the improvemement of the vein between the 150 and 200 levels, proves conclusively that the ore body, is not very far off.

LAST CHANCE.
Martin Jones, Supt.

The progress of the main shaft during the past week, has been satisfactory and gone forward without interuption and 14 feet, have been added to its depth, which is 92 feet below the 200-foot station, and the bottom, is in good working ground. If no interruption occurs, we will reach the 300 foot level sometime this week, when a station and sump will be cut out, and timbered; and crosscut started east to cut the vein.

HOMER M. & M. Co.
Martin Jones Sup't.

The tunnel on the lower vein, has been advanced 9 feet during the week. Total length 200 feet. At this point, a turntable has been put in, and crossents started both east and west. The east has been advanced 5 feet, and projected in this direction to cut the Wasatch vein, at a point vertically underneath the rich croppings and at a depth of 120 feet. The west crosscut has been anvanced 4 feet, and has not yet passed through the Crevice, Vein bottom of crosscut still in ore matter. The face of the Crevice vein is 4 feet in width of ore that will mill $40 per ton in gold. All other work in the tunnel has been disontinued and the force have concentrated upon the work in running these two crosscuts. The west crosscut will, when extended, cut the Nioma vein about 100 feet north of the richest outcrop shown on the surface. When the crosscuts cut the Wasatch and Nioma veins there will be seven faces of ore to work upon, and the season will be far enough advanced, and roads constructed, so the force of miners can be increased and supplied, and rapidly put the mine in condition to give a steady supply of ore to the mill.

God pardons like a mother, who kisses the offense into everlasting forgetfulness.

MIDDLE-AGED MEN.

There are many at the age of thirty to sixty who are troubled with the frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient can not account for. On examining the urinary deposits a ropy sediment will often be found and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty ignorant of the cause, which is the second stage of seminal weakness. DR.
